**Subject:** Summary of Progress on "Top Ten" for GWMWG Meeting  
**Attachments:** Regulator\_TopTenConcerns\_Status\_DRAFT\_A\_March4\_2019\_for\_GWMWG.pptx

Hi Folks,

We're pulling together some materials for the GWMWG meeting. There will be additional materials for this meeting, these are just some slides for one topic we will be presenting on.

In the morning on the 15<sup>th</sup> I will be providing an update to the group on the regulators position on progress towards the ten items we presented on in the last modeling work group meeting. Please see the attached draft slides and let me know if I have erroneously represented the Navy's efforts or if you have a different take on the current status. Matt has already provided some technical refinement on the language so I think it's pretty close to being done. As a note, I did not include any specifics about the LNAPL presentation from yesterday (3/4) as they presented it as draft and unapproved by the Navy as a path forward, if we have significant progress during the week of March 11<sup>th</sup> then we may speak to that in person at the working group meeting.

Thanks!
